## On-Site Waste Water System As Built Plans and Specifications

| Date:                                   | Permit Number:   |
|---|--|
| Applicant Name:                         | Phone Number:  |
| Address:                                |  |
| Legal Address:                          |  |
| A. Building Sewer                       | C. Distribution Box                                    |
| 1. Material:                            | 1. Material:   |
| Diameter:                               | Number of available outlets:                           |
| 2. Distance above basement floor:       | 2. Factory Built: Yes No                               |
| Or distance below basement floor:       | Distance from septic tank:                             |
| 3. Distance between dwelling and septic |  |
| tank:                                   | D. Absorption Field                                    |
| 4. Number of clean-outs:                | (Provide "as-built" drawing on back side of this form) |
| 5. Distances to:                        | 1. Type: Half Rounds                                   |
| Well or suction line:                   | Perforated pipe  |
| Stream:                                 | Diameter of half round:                                |
| Pressure Line:                          | Or perforated pipe:                                    |
| Property Line:                          | Material:  |
|   | Fiberglass   |
| B. Septic Tank                          | Plastic  |
| 1. Material:                            | Concrete   |
| Number of compartments:                 | Other:   |
| 2. Capacity:                            | 2. Lateral lines:                                      |
| 2. Capacity: Yes No                     | Length of each line:                                   |
| 4. Manholes:                            |  |
| Diameter over inlet:                    |  |
| Diameter over outlet:                   | <ol><li>Trench Dimensions:</li></ol>                   |
| Riser: Above Grade                      | Width:   |
| Below Grade                             | Slope:   |
| Even with Grade                         | Average Depth:   |
| 5. Inlet: Baffle Tee                    | 4. Filter Material:                                    |
| 6. Outlet: Baffle Tee                   | Depth of Material:                                     |
| 7. Depth to the top of the tank, below  | 5. Distances to:                                       |
| unfinished grade:                       | Well or suction line:                                  |
| 3. Distances to:                        | Stream:  |
| Well or suction line:                   | Pressure Line:   |
| Stream:                                 | Property Line:   |
| Pressure Line:                          |  |
